## **NASA selects 28 scientists for Mars rover participation**

**N**ASA has selected 28 scientists for participation in the 2003 Mars Exploration Rover mission. The mission consists of two separate, though identical, rovers scheduled for launch in mid-2003 and arrival at separate destinations on Mars in early 2004. The selected proposals were judged to have the best science value. The science objectives include studying rocks and soils for clues to past water activity, studying geologic clues of environmental conditions existing when liquid water was present and whether those conditions were conducive for life.

## **Shuttle Endeavour launch set for Wednesday**

## **Free Huntsville Stars baseball tickets at NASA Exchange, Bldg. 4203 cafeteria and Wellness Center**

## **Bldg. 4200 construction work**

**W**ork to re-caulk windows on the north side of Bldg. 4200 has begun. The area north/northwest of the main entrance on the patio alongside Morris Auditorium is inaccessible. Please plan entries and exits to avoid this work.

## **Security reminds employees not to cover official badges**

**S**ecurity officials are asking all Marshall team members to make sure that any extra badges worn by employees are behind their official NASA or contractor badge. This includes the "I Think Safe Because" badges.

## **For safety 'lessons learned,' go to 'It Could Happen to You' Web site at SHE bulletin on 'Inside Marshall'**
